

2005-2007 MUSTANG SHAKER HOOD DECAL

Dear Customer, this sheet is additional instructions and helpful information for the 2005-2007 Mustang Shaker Hood Decal #K175-S8 ONLY. Please read all instructions on the yellow application instruction sheet also supplied with this kit.

◀ This stripe can be applied spaced from the hood ring or made to apply under the ring. If you are going to place it spaced from the ring trim the top application tape close to the decal as shown at left.

▶ Before peeling apart the decal place the decal on the hood for a dry fit and align as needed. Use tap to make guides for correct positioning.

◀ Start to squeegee a little above center and work to the shaker first. Then continue to the nose.

◀ You will need a extra person to help pull the decal as you squeegee to the nose.

Install the back hood stripe in the same manner.

NOTE: It is better to apply the stripespaced from the ring after the ring is installed because you will know the exact ring location. If you install your stripes under the ring the stripe will finish shorter from the nose of the hood.

DECAL KIT: #K175-S8
