

## 2005-2007 MUSTANG SHAKER CENTER FADER HOOD DECAL FOR USE WITH CLASSIC DESIGN CONCEPTS SHAKER SYSTEM

Dear Customer, this sheet is additional instructions and helpful information for the 2005-2007 Mustang CDC Shaker System: **#K192-S8 ONLY**. Please read all instructions also supplied with this kit.

◀ For use with Classic Design Concepts Shaker System ONLY.

▶ Before you peel the decal apart exposing the adhesive lay the decal on the hood and measure for correct placement. Use blue painters tape to mark the location of the decal in all corners.

▶ Start to squeegee just under the shaker cutout and squeegee to the nose on the car. A helper will have to pull the stripe in a forward direction keeping it tight so it will not wrinkle or bag up. (USE A SMALL AMOUNT OF PULL PRESURE)

▶ Squeegee one fader section at a time. Notice the void between the fader sections will bag up to accommodate the hood curvature.

▶ Complete the squeegee process by squeegeeing from the center to the windshield. Squeegee from the shaker hole outward. Notice the blue painters tape used for alignment.

▶ Wet the top application tape and resqueegee.

▶ Cut out any stripe material in the shaker hole using a sharp razor blade.

DECAL KIT: #K192-S8
